**FOR IMMEDIATE RELEASE
SEPTEMBER 29, 2021**

PAVING SET TO RESUME ON SECTION OF GRANDVIEW AVENUE

Public urged to stick to established detours to avoid hazards from construction activity

MUSCATINE, Iowa – The northbound lane of Grandview Avenue from Oregon to Pearl will be closed to traffic starting at 7 a.m. Thursday, Sept. 30, as paving begins in that section of the Grandview Avenue Reconstruction Project.

Heuer Construction plans to pave the two west side lanes from Franklin to Oregon on Thursday, weather permitting. The east side lane (northbound) will be utilized by the cement trucks delivering concrete.

With construction also ongoing on the south end of this phase of the project (from the railroad tracks to Musser Street), drivers are urged to utilize the established detours. The main detour route is from Grandview to Houser to Hershey, and back to Mississippi Drive to proceed north on Business 61. An alternate detour is from Grandview to Sampson to Stewart Road/Oregon to Warren to Liberty, to Grandview, and to Mississippi Drive.
