MEMORANDUM

Equipment Maintenance  
Roadway Maintenance  
Collection & Drainage  
Building & Grounds  
Engineering

To: Gregg Mandsager, City Administrator  
CC: Fran Donelson, Secretary  
FROM: Randy Hill, Public Works Director  
DATE: July 15, 2013  
RE: Roadway Maintenance Equipment Purchase

INTRODUCTION:

The City of Muscatine will be replacing a 1998 Dump Truck (#153) including the dump body, salt spreader and snow plow.

BACKGROUND:

As part of a "complete" truck replacement it is necessary to marry the truck chassis to a dump body, salt spreader and snow plow. A recommendation to purchase a Peterbilt chassis has been submitted. The dump body on old unit #153 has holes and hydraulic issues. The salt spreader (#104) fitted for #153 is not stainless steel. The old two way snow plow which completed this truck will be placed on the Public Surplus auction.

The purpose of bidding the body, salt spreader and two way plow as one unit is to ensure that the vendor selected matches all of the hydraulics and electronics to the chassis. If we did this piecemeal we know from experience that there are on-going maintenance problems and none of the vendors want to take responsibility for their equipment's failure.

RECOMMENDATION/RATIONALE:

The City received bids on July 2, 2013 for a dump body, salt spreader and two way snow plow. We received three bids – the lowest from Henderson Manufacturing Inc. in the amount of \$56,585.00 \$68,000 has been budgeted for this purchase.

We recommend issuing a Purchase Order to Henderson Manufacturing for a dump body, salt spreader and two way snow plow. If you have any questions, please contact me.
